

ASSISTANT STATED CLERK REPORT

With the Session Records Review at Woodhull the series of Record Review and Training for Clerks of Session came to a completion. They were well attended and I appreciate the people who have taken seriously their work as a Clerk of Session. The addition of Woodhull has made for good accessibility to one of the four meetings. I thank United Presbyterian Church, Peoria; First Presbyterian Church of Springfield, First Presbyterian Church of Macomb, and First Presbyterian Church of Woodhull for the gracious hospitality offered. I was able to make some "other" arrangements for some churches. We do have the 4 meetings spaced through the summer and into fall so that one should be accessible for your church's Clerk.

These Churches did **not** have their records reviewed. There may be legitimate reasons for not having records reviewed. Not being able to make one of the four opportunities is NOT one of them. We plan these times ahead and they have been about the same dates and places as previous years. G- 9.0407c, d mandates the review of records by the next level of governing body.

In addition to these Clerks of Session Reviews and Training I have fielded various questions related to records, and related polity matters. The ones not in my sphere of responsibility have been forwarded to persons who could provide assistance.

Respectfully Submitted,
